CONFIDENTIAL

**CONFIDENTIAL**  
OFFICE OF STRATEGIC SERVICES  
WASHINGTON, D. C.

*Encl*  
*WJ*

18 September 1945

TO: Executive and Liquidating Officer  
FROM: Acting Chief, Special Projects Office  
SUBJECT: Proposed Plan Liquidation "Javaman"

It is estimated that project "Javaman" will be liquidated on or about 15 October.

DISPOSITION OF PERSONNEL

Personnel will be turned back to the various branches of the service as soon as their services are no longer needed in Special Projects. See attached list of Special Projects "Javaman" personnel, and approximate separation date. The return of personnel will be somewhat governed by the Air Forces, as we are dependent upon them in most cases for the return of certain classified equipment, and it is therefore necessary to keep technical personnel, familiar with this equipment, on hand until this equipment is completely disposed of.

LIQUIDATION OF PROPERTY

Representatives from Wright Field, Dayton, Ohio are presently at our Newark Base, inventorying equipment aboard craft located there, and on the completion of the inventory these craft will be turned over to the Army Air Forces, and our Base at Newark can be liquidated immediately, returning the personnel now at that Base to the various branches of service.

The personnel at the Base in St. Petersburg, Florida are now occupied with packing and crating technical equipment for return to the Army Air Forces, and to the Navy. Such regular items of issue that we received from the Army will be turned over to Drew Field, obtaining proper receipts for same. The OSS equipment will be returned to the Army, and special OSS equipment will be returned to Washington.

**CONFIDENTIAL**

CONFIDENTIAL

- 2 -

No difficult problems can be foreseen at the present moment.

Your office will receive a Weekly Report on the progress of liquidation, and it is the intention of this office to liquidate project "Javaman" at the earliest possible date.

  
GEORGE E. LARISON  
1st Lt., AUS

CONFIDENTIAL

5521-94

ROSTER OF SPECIAL PROJECTS PERSONNEL

Where no separation date is noted in the column beside the individual name, it is estimated that these individuals will be either separated from the service or returned to their respective branches of service on or about 15 October, with the exception of those marked DEC. Reports and OFF. PER, indicating the classification reports section and regular office personnel.

UNITED STATES GOVERNMENT

CONFIDENTIAL

*SS 21-74*

*Newark Airport*

*X Liquidation*

*Project*

TO : Mr. E. W. Gamble, Jr.  
FROM : Colonel C. C. Bowman  
SUBJECT: Special Projects  
Liquidation of Certain SSUWD

DATE: October 19, 1945.

The situation existing at Newark Airport in respect to the disposal of equipment now on hand is as follows:

The total personnel at the moment includes three officers, two warrant officers and fifteen ~~enlisted~~ Navy and Army enlisted men. Five are returning to Washington Monday next, the 22nd, five more are scheduled to return the week of the 29th and the balance, with the possible exception of one accountable officer and one enlisted man, will be returned on or about the 5th of November.

So far Captain Kruzemsk has succeeded in getting the Army Air Force to take up eight of the twelve boats originally on hand. Four others are on cradles and will be turned over at the rate of two each week. The reason for this delay is because all types of craft are being returned to this one station by the various Army Air Force installations and the Newark base is faced with a very serious personnel problem.

Had a conversation with Colonel Roberts, Chief of Staff to General Kane, Commandant, and he is entirely cooperative and stated that a Colonel Moran was coming on from Wright Field next week and at that time he might be able to assist us further in our liquidation.

Also talked to Lt. Grekke who has been designated to take care of the inventory and accept this equipment for the Army Air Force. He in turn states that he will do everything in his power to help us to discontinue this activity.

18 October 1945

MEMORANDUM

TO: Colonel Gamble

SUBJECT: Special Projects

To the extent possible, I made a survey this afternoon of the space occupied by this Branch and the activities of its personnel.

Five offices are occupied on the first floor of South Building by executive and administrative personnel. There are 8 desks in three of the offices and all seem to be in use. However, only three persons were in the offices at the time, none of whom seemed to be engaged in work, as such. I was unable to get into the other two offices.

The Branch also occupies Rooms 247 and 249 in South Building. Here there are some 8 persons engaged in personnel administration. Here again the personnel did not appear to be engaged in any particular work, but while I was there were rather engaged in social conversation and reading books or other matter extraneous to personnel administration.

Room 209 is occupied by 4 and possibly 5 persons who are engaged, I was advised, in publicity. Only 1 of the persons was actually doing any writing at the time I was in this office.

I was also advised by an enlisted man in Room 233 that the three offices occupied in that section of South Building, that is, the offices adjacent to Room 233, are also occupied by persons engaged in publicity. At the time I was in this office only two persons were there and they both appeared to be engaged in writing of some character.

OFFICE OF STRATEGIC SERVICES

WASHINGTON 25, D. C.

2 October 1945

TO: Executive and Liquidation Officer

FROM: Acting Chief, Special Projects Office

SUBJECT: Liquidation Project "Javaman"

1. Liquidation of project "Javaman" is progressing as well as conditions permit. The base at St. Petersburg, Florida has loaded and shipped two box cars of electronics gear and component parts to Robins Field, Georgia, and have about another half box car to be loaded. The nine JR boats at St. Petersburg are in the process of being loaded and shipped this week. There still remain two ARBs at this base to be disposed of, and we are awaiting word from the Air Forces on disposition of same.

2. The personnel at the base at Newark, New Jersey are presently engaged in inventorying equipment aboard the ARBs there, together with representatives of the Air Forces, previous to turning the craft back to the Army Air Forces. No serious problems or complications have arisen.

WASHINGTON 25, D. C.

24 September 1945

To: Colonel Edward Gamble  
From: Pierre F. Simon 2096  
Subject: SSO Liquidation Report

Following is a detail report of the liquidation progress of SSO since the departure of Colonel Bigelow, 1 September.

Space:

We turned over Room 2104 to Major Patrick Dolan, Room 2110 to Special Projects (Personnel Section) and Room 2028 to Field Experimental Unit.

Furniture:

The furniture and office material of each of these rooms was transferred to the Accountable Officer of the respective branch and actions were sent to the Property Officer of OSS, Mr. Cristafulli. Room 2028 (Supply Room of SSO) which contains more than 100 lockers was emptied of everything stored by other branches except the supplies belonging to FEU. The Room is now the responsibility of Captain William C. Sankey of FEU.

Personnel:

Miss Helen Noren's papers for transfer to R & A are going through and we were told today that they will be retroactive to 14 September. Our last civilian employee, Mrs. Dorothy Rouden, is being transferred to Special Projects and should be effective 1 October 1945.

Automobile:

We are turning back to Mr. John Colborn, Chief of Maintenance, the Packard with Government Plate 1575, which was charged to SSO.

Files:

Files of SSO were turned over to Archives. The files pertaining to different branches under SSO were turned over to the respective branch involved.

The writer of this report is the only remaining person assigned to SSO. He is awaiting action on his request for discharge from the Army which was submitted on the basis of being over 35 years of age.

## Office Memorandum • UNITED STATES GOVERNMENT

TO : The Director, OSS

FROM : Edward W. Gamble, Jr., OSS Executive and Liquidating Officer

SUBJECT: Status of Liquidation -- Special Projects Office.

DATE: 12 September 1945

The question of liquidation of certain phases of the Special Projects Office has been discussed with 1st Lieutenant George E. Larison, who stated that the personnel strength as of 10 September 1945 was 293. The strength approximately six weeks ago when the project reached its peak was 613. Immediately following VJ day a considerable reduction in force was effected.

The present personnel of 293 is distributed as follows: 43 officers and men at the base in Newark, 35 on duty, Washington headquarters, and the balance at the base in St. Petersburg, Florida, approximately 100 of whom are Services personnel. As you know, the Project "Java" was undertaken jointly with the Army Air Forces, and the delay incurred in liquidating same results from the necessity of waiting to learn how many of the personnel attached to the project will be requisitioned by the AAF.

The 43 men in Newark have been there 14 days and are awaiting Air Force personnel on route from Wright Field who will inventory, accept and pack the electronic equipment, etc., used in connection with the aircraft rescue boats. Lt. Larison stated that Mr. Cheston is conversant with this situation and offered to intercede with the AAF in the event there was further undue delay in effecting the transfer of property and equipment incident to this project.

Lt. Larison stated that he anticipated that the entire Project "Java" would be closed out completely on or before 15 October 1945, and that a certain amount of delay is unavoidable if we are to maintain smooth working relationships with the AAF in closing out this project.

Commander Shaheen's office will furnish this office a weekly statement covering the status of the liquidation of the Special Projects Office.

*9/21/45  
Submitted to Gamble  
Will not ask Shaheen  
for further report  
WDS.*

From: Lt. George E. Larison, AUS  
To: The Director, OSS  
Via: Executive and Liquidation Officer  
Subject: Progress report of liquidation of Javaman

*These  
Reps. have  
arrived  
9/21/45*

1. Progress on liquidation of this project has been delayed somewhat, awaiting the arrival of representatives from Wright Field at our bases in Newark, New Jersey, and St. Petersburg, Florida. On 13 September 1945, this office was advised that representatives from Wright Field would arrive at the Newark base on 17 September, at which time an inventory of the equipment aboard the ten ARB's will be made and after the inventory is completed, the Army Air Forces will accept the craft. Personnel now located at Newark can then be dispensed with. It is estimated that it will take ten days to liquidate the Newark base.

*Larison  
w/ies  
Keep*

2. The St. Petersburg base is now engaged in general clean-up and packing and crating the electronics gear for shipment to Wright Field. This office has requested that each department head in St. Petersburg furnish, by Monday of next week, a list of men who can be made available for transfer to other branches of the service, which should expedite the release of approximately one-hundred men within the next ten days.
